420 University Ave. Suite 204A Charlottetown, PE C1A-7Z5

(P) 902-569-1682 (F) 902-569-1827 Email: peracing@eastlink.ca

The Maritime Breeders Association is now accepting memberships in the form of stud fees for the 2024 breeding season. The fee to become a member of the Maritime Breeders Association and have yearlings from your stallion eligible for nomination to the Maritime Breeders Stake in 2026 is **\$750 or one full stud fee, whichever is the greater of the two per stallion.** There is no HST on stud fees for this program. Please complete the attached registration form and forward a signed copy to the address above prior to **March 31st, 2024.** Stallion fees are due by **May 15th, 2024.**

Payments made after this date will be **subject to the following late payment schedule:**

May 16th to August 1st, 2024 - \$250 Late Penalty in addition to \$750 or one full stud fee, whichever is the greater of the two per stallion.

August 2nd to November 30th, 2024 - \$500 Late Penalty in addition to \$750 or one full stud fee, whichever is the greater of the two per stallion.

No late payments will be accepted after November 30th, 2024. Offspring of stallions not paid in by November 30th, 2024, will be deemed ineligible to be nominated as yearlings to the stake in 2026.

Please note, once a contract is signed and submitted by the stallion owner, they are responsible to pay the required stud fee as listed above to the Maritime Breeders Association.

For a stallion's progeny to remain eligible to stake, the stallion owner(s) must submit a payment for each year that the stallion has bred mares, and the stallion must stand their entire breeding season in one of the Maritime provinces. If a mare has two foals as the result of an embryo/ ovum transfer in a given year, only the first-born foal will be eligible for nomination. The exception to this rule is the case where the recipient mare foals twins, then they both may be nominated to the Maritime Breeders Association Stakes as yearlings.

If you require any additional information concerning the Maritime Breeders Association, please contact Julie Jamieson at the above numbers.
